

## COLLEGE AND COUNCIL WILL DISCUSS PLAN FOR STREETS

The borough of Gettysburg will meet with Gettysburg College to "see about possibilities of reopening the old township road that went from N. Washington St. toward Mummastown" town council decided Monday evening at its meeting in the engine house.

The matter came before council on presentation of an offer by the Reading Railroad to give the town the street the railroad has operated for many years from N. Washington St. to the Reading freight depot.

Discussion at council indicated the railroad is planning to sell its property lying north of the railroad tracks to the college property and the belief of some councilmen that the college will buy the tract.

### COSTLY UNDERTAKING

The discussion indicated that if the town takes over the Reading Railroad drive to open Constitution Ave., the town will have to build a new bridge over the Tiber and put in a culvert over a small run which enters the Tiber, as well as hard surface the street.

Councilman Mahlon P. Hartzell and Borough Engineer LeRoy H. Winebrenner then brought up "the old township road" running through the college property which both recalled using prior to its "being closed" by the college about a half century ago.

If the town can reopen the road, which according to the discussion was "never actually closed, it's just one-way now and maintained by the college," the town would be able to put in a hard surfaced street without the expense of

## Two Delone High Students Injured

Two Gettysburg students at the Delone Catholic High School, McSherrystown, were injured Monday afternoon on their way home from school when their station wagon struck a five-foot embankment at the intersection of the Conewago Chapel-Mt. Rock Rd., about two miles northeast of McSherrystown.

Judith Courneen, 14, daughter of Mrs. Ann Courneen, 703 Johns Ave., was admitted to Hanover General Hospital suffering from a fractured right leg and a deep laceration of the forehead. Her condition was listed as satisfactory Monday.

Janice Grawe, 17, of 438 Baltimore St., identified by Conewago Twp. police as driver of the station wagon, was treated at the hospital for contusions of the chest and laceration of the forehead and was discharged.

Police estimated damage to the station wagon, owned by Miss Grawe's parents, Mr. and Mrs. George F. Grawe, at \$1,000. The young women were moved to the hospital in the McSherrystown Fire Company ambulance.

## CHEST FUND HAS 72.3 PCT. OF ITS GOAL

Gettysburg's Community Chest has reached 72.3 per cent of its goal of \$29,900.

Douglas Houston, campaign chairman, said \$21,619.06 has been received during the campaign so far and added that "if all the persons who have not yet been seen are contacted and if they give as well as they have in prior years, we'll meet our goal."

He added that he hopes those contacted will "give just a little better than before" to guarantee that the campaign will be a success.

This year's goal is higher than last year's and contributions so far have been running about 10 per cent better than the last year, thus making optimism on the eventual result of the drive possible, Houston said.

ONE MORE WEEK

Houston urged all canvassers to complete their drive by next Monday night when the final report meeting will be held from 7 to 9 o'clock at the Gettysburg College dining room.

The drive chairman had hoped the goal might be reached by Monday night's report period at the Hotel Gettysburg but in inability of the canvassers to reach all of the persons on their list prevented that result. At the same time, Houston added: "We have to congratulate the chairman and solicitors because they have already done a better job in a shorter time than ever before."

He especially praised Charles Pentz and Miss Helen Spangler, co-chairmen of the residential campaign which was described as about 90 per cent completed. The special gifts, business and classified campaigns are yet incomplete, he noted, and "we can reasonably hope for some large sums to come in from these areas."

Houston praised Thomas Gibbons and Bruce MacClay who have served as auditors for all three of the report nights.

## TEACHERS OF COUNTY DINE HERE MONDAY

Celebrating National Education Week, more than 250 Gettysburg and Adams County public school teachers and their guests attended a banquet Monday evening at the Gettysburg College dining hall and heard an address by Louis P. Shannon, manager of the extension division of the Du Pont Company.

Shannon spoke of the "Disappearance of the Obvious" and in a militant defense of the American way of life said, "The answer to collectivism and communism lies in a superior performance by democracy and the free enterprise system."

The teachers, holding their first joint function in a number of years, were welcomed to the campus by Dr. Russell Rosenberger, head of the department of education at Gettysburg College. There were vocal solos by Kenneth Hays, music instructor in the local public schools, and fun and music by a Little German Band whose members were from the Bermudian Springs district.

KORVER PRESIDES

John R. Korver of the Bermudian Springs High School was the toastmaster. He made numerous introductions including County Superintendent of Schools C. P. Keeter who presented Charles L. Raffensperger, Gettysburg, a former assistant county superintendent of schools, who was attending his first teachers' banquet in a number of years.

Other introductions included Gettysburg Superintendent H. Edgar Riegle, Miss E. Elizabeth Rutledge, special education supervisor; Richard C. Lighter, vocational education supervisor for this area; Assistant County Superintendent

## Invite Parents To Visit Grade Schools

Parents of Gettysburg elementary school pupils had an invitation to visit their children's classes this week and to attend an "open house" at the three elementary buildings Wednesday evening from 7 to 9 o'clock.

As a special feature of local observance of national Education Week, parents of the First and Third Graders were invited to visit their youngsters in school Monday afternoon. Today is special visiting day for parents of pupils in the Second and Fourth Grades while on Wednesday afternoon, parents of Fifth and Sixth Grade pupils will visit.

Teachers will be in their classrooms Wednesday evening also. Refreshments are to be served in the school cafeteria.

## KLUNK TELLS ABOUT SURPLUS FOOD PROGRAM

Fred G. Klunk, New Oxford, executive secretary of the state retirement board who is also in charge of the state's surplus food program, reported on the progress of that program at the meeting of the Kiwanis Club Monday evening at the Lamp Post Tea Room.

Nearly 20 per cent of the millions of tons of surplus food distributed throughout the nation goes to people, institutions and schools in this state, Klunk told the group. A total of 900,000 Pennsylvanians receive surplus food from the federal government through the state's program, he said.

Schools in the county are receiving surplus foods for use in their school lunch programs but Adams County is one of several counties which does not distribute surplus food to persons in need within the county, he added.

WOULD CUT RELIEF

Klunk said "the cost of distribution has prevented the start of a surplus food distribution program in the county."

Distribution of surplus food is based upon the size of families and most of the food available through the program with the exception of butter is either

## More Than 200 Costly Homes, 7,200 Acres Are Destroyed In Disastrous Fire

LOS ANGELES (AP) — Two disastrous fires threatened early today to join and burn oceanward on a 10-mile front that officials said would threaten a whole new community — fashionable Pacific Palisades.

The major multimillion-dollar blaze—the worst in Southern California history—already had destroyed more than 200 costly homes including those of such film stars as Burt Lancaster, Joe E. Brown and Zsa Zsa Gabor. Ex-Vice President Richard M. Nixon was among those who fled the flames Monday.

The larger fire sprawled out of control today like an ugly, flaming crown in the Hollywood hills. Santa Monica Mountains range above swank Bel-Air and Brentwood.

BURN 7,200 ACRES

Eating through Topanga Canyon's explosively dry brush during the night, a companion fire that also broke out Monday moved to within slightly more

more than a mile of the Bel-Air fire.

The Topanga fire had raged through 4,000 acres, the Bel-Air through 3,200. Only Rustic Canyon, which has a few expensive homes, separated the two.

Officials said the fires probably will join, forming a 10-mile flaming front. If they continue burning southward, all of heavily populated Pacific Palisades, near the ocean, would be in danger, the officials said. The two fires already were only three or four miles from that community.

PREPARE FOR WORST

"We are making full preparations for the worst," said County Fire Chief Keith Klinger.

Men and equipment in large numbers moved into the southern end of the Topanga Canyon holocaust. Twenty-four bombers, 12 for each fire, were loaded for daylight bombing of the flames with a fire-retarding borate solution.

Minor injuries to 10 firemen in the Bel-Air fire were reported.

The Weather Bureau predicted gusty northeast winds, decreasing slowly, in the mountains and below coastal canyons today.

2,000 ARE EVACUATED

More than 2,000 persons had been evacuated from one of the nation's richest residential areas. Residents leaving the area with armloads of possessions, leading horses, pets and children, suggested refugees fleeing from war.

Wild animals scrambled along Beverly Glen Boulevard. Flames had ravaged their native haunts.

Magnates, movie stars, school children and housewives fled from homes and classrooms to escape the blaze Monday. Fire officials called it the most damaging in Southern California history.

Nixon, whose rented home escaped the flames, said: "I have seen trouble all over the world, but nothing like this."

Some of the movie stars' homes reportedly cost more than \$100,000.

## EX-PRESIDENT IS 65TH VOTER THIS MORNING

Former President Dwight D. Eisenhower was the 65th person to cast a ballot in Cumberland Twp. in today's off-year election. It was his first vote as a private citizen since he left the White House.

He walked briskly into the Barlow Fire Company engine house at 8:50 o'clock after driving here from Washington where he had spent Monday evening. He spoke to the polling place employees, signed his application for a ballot and eight minutes later deposited his ballot in the ballot box.

One of the employees offered him a piece of homemade candy which he accepted and ate. As he was about to leave the polling place two photographers from national syndicates arrived on the scene and asked to take a picture. Gen. Eisenhower stepped to the entrance to one of the booths and awaited a moment while the photograph was made. He would not pose showing him depositing his ballot a second time.

ATTENDED DINNER

Gen. Eisenhower said that Mrs. Eisenhower hoped to vote but that he did not know whether her doctor would permit her to leave the house because of her recent illness.

The former President went to Washington Monday for a get-together with colleagues active or formerly active in SHAPE (Supreme Headquarters Allied Powers Europe).

The occasion was an informal dinner at the Army-Navy Country Club in Arlington, Va. Gen. Alfred M. Gruenther (ret.), like Gen. Eisenhower a former SHAPE commander and now head of the Red Cross, was toastmaster.

Army, Navy and Air Force musical units played at the affair and the program called for brief informal talks. Associates of Eisenhower said he arranged to have a periodic health checkup at Walter Reed Army Hospital while in Washington and that he would stay at the hospital overnight.

## Two Men Hunt On Battlefield; Fined

Dale R. Abel, York R. 3, and William E. Byers, 1155 Montrose Ave., York, were fined \$100 this morning by U. S. Commissioner J. Francis Yake after being arrested at 9:45 a.m. hunting on the battlefield by Paul Lindemuth, Ranger.

The two men were charged with hunting wild life and with bearing firearms with ammunition on the battlefield.

Yake suspended \$75 of the fine on condition the men desist from hunting on the field for five years.

If the men are arrested for hunting on the battlefield during the next five years they will have to pay the suspended \$75 fine and the additional fine for the second offense.

## LOCAL ACCIDENT

Borough police reported that Marie E. Keyes, Baltimore, struck the left side of a car driven by Helen J. Brandt, Hagerstown R. 5, Monday morning at 11:50 o'clock as Brandt was traveling west on W. Middle St. at Confederate Ave. Police said Keyes was driving out of Confederate Ave. when the accident occurred.

Damage to the Brandt car totaled \$40 and \$25 to the Keyes vehicle.

After H. Edgar Riegle, superintendent of schools, welcomes the parents, the athletic director, George Forney, will explain the national physical fitness program in which GHS has been chosen to participate.

## Reach For An Apple Instead Of Candy: Sheen

Dr. James D. Sheen Monday evening urged counsels "to reach for an apple instead of a sweet" if they would save their teeth.

The Baltimore St. dentist, giving a classification talk at the meeting of Rotary in the YWCA, said apples and other raw fruits "have a detergent effect" which cleans the teeth of the sugars which can turn to acid and cause tooth decay.

Sugar and refined carbohydrates were described as the principal enemies of teeth. When eaten, some of the sugar remains on the teeth, turns to acid within a few minutes and the acid begins to cut away the enamel of the tooth.

Saliva can neutralize a portion of the acid, but "if you keep eating away at candy and cookies you generally get more acid than the saliva can handle," the dentist said.

MOST PREVALENT

"Tooth brushing should take place at the end of each meal, but since that isn't always possible, eating a raw fruit instead of a sweet at the end of the meal helps save the teeth. And if brushing is to do any good it must be done within a few minutes after eating."

Dental caries is the most prevalent

ORDER SNOW FENCES

The Fairfield borough council at its November meeting Monday evening ordered the purchase of 1,200 feet of snow fence for use along Franklin St. this winter. All members of the council attended with President Thomas L. Newman presiding.

## WEST LINCOLN AVENUE TO BE RESURFACED BY BOROUGH

Gettysburg will resurface W. Lincoln Ave. from College Ave. "to the railroad if funds hold out," according to a decision at the Monday evening meeting of council in the engine house.

Council voted to spend \$500 toward establishment of a county-wide "police radio network," cost of which is to be divided among participating boroughs, the county and Civil Defense. The network is being set up prior to 1963 when the firemen's radio network will be usable only for fire purposes under Federal Communications Commission rules.

Approval was given resolutions asking the state to approve 25 mile per hour zones on all streets in the town which are state highways. The town had 25-mile-per-hour regulations on the streets for some years, but the resolution was necessary, Councilman George Naugle explained, in order to have an accompanying resolution by the state designating the speed limits.

TWO APPOINTMENTS

Orville B. Orner was renamed to a five-year term on the Gettysburg Planning Commission. LeRoy H. Winebrenner was renamed to a five-year term on the Municipal Authority. He told council, in response to some joking about the increase in the water rates, that he had voted against the increase.

The salary of Borough Officer Russell Potter was increased from \$3,200 to \$3,400 as of November 16.

Kenneth W. Johns, of the Planning Commission, asked council to authorize expenditures of the \$1,500 allocated for planning commission use. He said the commission plans to hire Homer C. Bennett of Erdman, Anthony and Associates, Harrisburg, at a cost of \$50 per day plus expenses to make a traffic study and make recommendations. He added that the study "will take into consideration the bypass of Route 15."

DELAYED FOR MONTH

Johns said: "We want to get an expert in to interpret these various traffic surveys that have been made and give us some recommendations. We feel that we need an expert's advice. So far we have no advice or suggestions from anyone in the town or council."

Councilman John D. Thrush wanted to know more details of the plans of the planning commission and suggested that the matter be studied for a month. After a fairly lengthy discussion, action on the request for \$1,500 was postponed to the December meeting.

A letter was read from Ralph K. Will, chairman of the civic affairs committee of the Chamber of Commerce, urging council to "seriously consider" the possibility of setting up a borough manager type government for the town. No action was taken.

FLOWER BOX ORDINANCE

A letter was read from Superintendent of Schools H. Edgar Riegle expressing his and the school's appreciation for the widening of Wainwright Ave.

Donald Becker of the Junior Chamber of Commerce expressed his appreciation to the council for its support of Campaign Gettysburg and said 55 per cent of the property owners and store keepers in the center of the town have signed so far to take part in the campaign. A proposed ordinance was read which will permit placing flower boxes over the sidewalks.

No action was immediately taken on the ordinance pending a study by Councilman Thrush of whether it will be better to have a new ordinance permitting the boxes or amend the prior ordinance. He is to report in December. Council indicated it will either adopt the new ordinance or amend its old one to permit placing of the flower boxes.

A letter was read from the Gettysburg Planning Commission putting the commission on record as "supporting Campaign Gettysburg" and stating: "If 'Campaign Gettysburg' becomes a reality the commission feels that it would be advisable for the Gettysburg Borough Council to consider the advisability of promoting 'Campaign Gettysburg' in issuing building permits for remodeling of present buildings or construction of any new buildings within the first two blocks of the square."

LOSE SHADE TREES

Council was told that the town has received an application from Harry Kuhn and Kermit Paxton for construction of an \$150,000 motel at the former Huber property on the corner of E. Lincoln Ave. and Carlisle St. Borough Engineer Winebrenner said that at the request of Forrest Craver,

# 830 VOTERS CAST BALLOTS UP TO 1 P.M.

Voting was fairly light, as expected, up to 1 o'clock this afternoon.

In the First Ward, First Precinct 134 had cast ballots. In the First Ward, Second Precinct, the total was 183. In the Second Ward, 240 persons cast ballots, and in the Third Ward 273 had voted.

Voting will continue until 8 o'clock this evening.

The 830 who voted up to 1 o'clock compares with 795 during the same period in 1957 and 856 in 1963. Four years ago, at the last municipal election, the number of votes cast in Gettysburg up to 1:30 p.m. was First Ward, First Precinct, 194; First Ward, Second Precinct, 133; Second Ward, 238, and Third Ward, 210.

Gettysburg has 3,600 registered voters.

## WEST LINCOLN

(Continued From Page 1)

chairman of the town's shade tree commission, he had gone to the property and determined that trees around it were "on their property and not on the borough's so they can do anything they want with the trees." Reports later showed most of the trees had been cut down by the time council met.

Joseph and John Kendlehart appeared before council to ask whether the Adams County Sanitation Co. "has been granted an additional increase beyond the \$2.25 a month rate." Council President Glenn Guise said no increase had been given by council or any of its committees. The Kendleharths said John Hamilton of ADCSO had been to see them and they understood they would either have to pay 15 cents additional a week or place their garbage at the curb.

Guise said the "15 cents is a matter between the garbage collector and the resident. If the resident wants to pay 15 cents additional for the additional service that is his prerogative."

### "CONDUCTING SURVEY"

Joseph Kendlehart replied: "Well then, that is an increase if I have to pay 15 cents more to get the service I get now. If I don't pay, they won't collect."

Guise said they "certainly will collect whether you pay the 15 cents or not." Other councilmen said it is against the borough ordinance to put garbage cans on sidewalks.

Today ADCSO spokesmen said the proposal was not in the form of an order to the residents, but a survey made of much of the town to determine the opinion of the public on paying additional for additional service. The majority of those contacted have agreed that such a charge is not unreasonable, the company said. The spokesman added that it planned to present the results of the survey to council as council had suggested at a prior meeting on ADCSO rates. At the present time no one is being charged additional when garbage men in the community have to walk some distance to obtain the cans.

### REPORTS BIDS

Councilman Clyde DeHaas presented bids for sale of 800 feet of 1 1/2-inch hose for the fire department. Irvin Houck, Hanover, presented two bids, one at \$1.30 a foot, the other at \$1.45 a foot. Eureka Hose Co. presented two bids, one at \$1.30 a foot and the other at \$1.50 a foot. DeHaas said he would make a recommendation at next month's meeting as to which bid should be accepted.

A letter from Attorney Daniel E. Teeter representing Mrs. Lloyd Durbow was read concerning a notice sent Mrs. Durbow to repair curbing at properties owned by her on Third St. and E. Middle St. She claimed that the E. Middle St. curb was damaged by the snow loader and that the town should repair it. On Third St. she reported that the town's raising the crown of the road made her curb low and that she is the only person on the street to have curbing and a sidewalk. Councilman Hartzell declared: "That's all false. The snow plow didn't go down there, so it couldn't break the curb."

### WORK ON ORDINANCES

The council voted to send Mrs. John Munser a notice to repair a short stretch of curbing "on which the snow loader caught last year."

Councilman John Thrush reported the ordinance committee is "making real progress in organizing the ordinances. All of the typing is done and we are now getting them in order." Council voted an additional \$900 for secretarial help in preparing the ordinances for codification.

The town decided to construct a 12-foot driveway at the Barlow St. entrance of "Hartzell's Alley."

tendent M. F. Coulson; Mrs. Catherine Budd, New Oxford, County PSEA president; Robert Diehl, Gettysburg PSEA president, and George Wehler, president of the retired teachers. Mrs. Budd and Mr. Diehl thanked teachers who helped with preparations for the dinner and Mr. Wehler presented members of his association.

### 4 MAJOR FACTORS

Mr. Shannon, a former educator who has been with Du Pont for the last 19 years, said "There is nothing mysterious about America's plenty. It's simply because we have learned to produce and distribute economic goods in abundance."

He contrasted the productivity of the United States with "those lands where no matter how early you get up, or how hard you work, your reward is essentially the same as those who stay in bed late and produce nothing."

He pointed out that, in two of the four major factors affecting the production of goods, natural resources and manpower, the United States possesses no advantage. There are other places on earth more richly endowed in resources and Red China, India and the Soviets outweigh us in sheer numbers.

### NO STIGMA ATTACHED

But in the remaining two factors, motivation and tools, the United States is clearly superior. "We in America have been particularly motivated from the beginning as a nation of free individuals," he said. "Ours has been a land where any man could, if he would . . . there was no social stigma attached to success."

"The over-all effect of a nation of free individuals, each striving in a free and competitive economy, to produce a better product or render a better service has caused us to become a tremendously productive nation. The application of modern industrial technology has swept up swiftly from simple hand tools to complex mechanical marvels," he said. "With it has come a tide of quality goods priced so low that today's worker can enjoy things that were available only to yesterday's millionaire."

But the productive tools of modern industry come from savings. What is not so clearly recognized is that "the savings of free people provide the capital for our industrial system, and the return which they hope to receive for its use can come only from profits. Here is the very basis of our economic structure."

Closely related to the principle of industrial production is a strong sense of personal responsibility. Mr. Shannon said and pointed out that, in early America, the relationships between cause and effect were easy to see. The man who cleared the forest, built his home, provided the fuel, and planted the crops had tangible evidence of the result of his efforts.

### PERSONAL RESPONSIBILITY

"Unfortunately, in the complex of today's industrial society," he said, "some of the once obvious relationships between cause and effect are in process of disappearing . . . One major point on which much confusion exists is the principle of personal responsibility. A strong and free nation is forged by intelligent people acting responsibly, not by pressure groups acting selfishly, nor by moral cowards seeking refuge in the crowd."

"One is not fully identified with a group," he continued, "until he personally feels in his heart the pressure and the pull, the pain and, hopefully, the pride of his own responsibility for group action. The 'Why don't I?' question is the badge of the free man; the 'Why don't they?' is the badge of the serf."

### DON'T NEED BOMBS

"Those who would destroy America do not need to resort to beachhead landings or thermonuclear bombs," he warned. "It can be done much easier than that. Our enemies know that only the productive can be strong and that they will permit only the strong to survive. Therefore, they seek to get us to destroy our own productivity, thereby opening the grave for the economic burial which they have threatened us before the world."

"To make good on their threat," Mr. Shannon said, "they need only to effect changes in our social structure so that the producer fares no better than the parasite, the saver no better than the spendthrift."

The Little German band members were headed by Dale Roth and included Donald Kemp, Gary Crum, Harold Sanders and Richard Thompson.

A fried chicken dinner was served. Table centerpieces were presented to the retired teachers.

## More Than

(Continued From Page 1)

The main fire is in rugged, mountainous terrain extending westward to the sea and dividing the San Fernando Valley from Los Angeles and its western suburbs. The sprawling blaze is roughly 10 miles northwest of downtown Los Angeles and three miles northwest of Beverly Hills. Brentwood, Bel-Air and the Hollywood hills are suburban communities.

Gov. Edmund G. Brown declared Los Angeles County a disaster area.

### LOSS IN MILLIONS

The spokesman said the total value of ruined or damaged real estate alone could exceed 15 million—not including priceless art works, lavish furnishings, furs, jewelry and hillside watershed, a vital defense against springtime floods.

More than 1,300 men fought the fire, which started Monday morning and raced across Bel-Air and surrounding suburbs, studded with palatial estates, \$200-a-day hotels and exclusive golf courses. The blaze swept down dry, sun-burnt slopes, overran luxurious homes and quickly consumed 6,000 acres.

The worst previous fire in Southern California burned about 40,000 acres and destroyed 67 homes in nearby Malibu in 1956.

### NIXON FLEES HOME

Homes damaged or temporarily threatened included those of Cary Grant, Red Skelton, Kim Novak, Maureen O'Hara, Fred MacMurray, Alfred Hitchcock, Ginger Rogers, Marlon Brando, Robert Stack, Steve Cochran, Bobby Darin, Greer Garson, Jascha Heifetz, Peggy Lee, Meredith Willson, Maxene and Laverne Andrews and Cliff Robertson.

Former Vice President Nixon was working on his forthcoming book, "Six Crises," in his rented Brentwood home when he and research assistant Al Moscow noticed flames a few hundred yards away. Nixon, hose in hand, clambered up the roof and watered the shingles. Firemen ordered him, Moscow and a house man to leave. They took his manuscript.

### RESCUED NIXON DOG

They returned later to recover personal effects and rescue Nixon's cocker spaniel Checkers, who figured prominently in his 1952 vice presidential campaign. The house, leased from producer Walter Lang, was saved. The Nixon family spent the night at a downtown hotel.

Flames licked the garage near the entrance of Red Skelton's five-acre, half-million-dollar estate. Firemen pumped water from the comedian's swimming pool and saved the home. Skelton and wife Georgia were en route home from Boston. His daughter Valentina, 13, and the household staff were evacuated.

The \$400,000 home of Zsa Zsa Gabor, loaded with paintings, jewelry and furs, was a smoking ruin.

### ACTRESS USES HOSE

All that was left of Burt Lancaster's hillside home were two smoking chimneys, a water-soaked baseball diamond, a burnt exercise-bicycle and barbells.

Kim Novak, clad in a leopard and flimsy blouse, rushed home from a movie studio, climbed the roof of her Bel-Air home, worth an estimated \$200,000, and sprayed a hose about the property, which was saved. The beautiful blonde actress, her face besmudged with soot, her blouse soaked, emerged unhurt with her fiancé, director Richard Quine, who ripped his trousers.

Joe E. Brown lamented to newsmen: "Everything went—just as quick as that."

"I can't talk to you right now," said Marlon Brando, reached by phone as he scurried about his Japanese-style house atop Mulholland Drive. "I'm kinda busy." His home was left intact.

### SAVES 40 PAINTINGS

Art collector James Vigevano fled from his suite in the Bel-Air Hotel with an autolod of 40 paintings, including works of Modigliani, Utrillo and Picasso. The Bel-Air Hotel evacuated 100 guests—including producer Otto Preminger, playwright Gore Vidal and Broadway musical producer Morton Da Costa.

A few miles away, in sparsely settled Topanga Canyon and unpopulated Santa Ynez Canyon, a brush fire destroyed nine homes and scorched about 2,000 acres, through steep canyons, exploding at times into a dreaded "fire storm," which occurs when flames get so hot they generate their own winds, up to 100 m.p.h. or more, and devour everything

## COLLEGE AND

(Continued From Page 1)

bridge building and "it should be a benefit to both the college and the town," according to Councilman Hartzell.

### PARTS IN USE

The "closed street" or "township road" left N. Washington St. a short distance north of the Tiber, councilmen recalled, passed south of what is now Brua Hall to the present "street" north of the Reading freight station. It then extended northwest across Oak Ridge over what is now property of Dr. Roy Gifford and through the present Winebrenner farm.

The portion of the road past the Reading freight terminal and the college athletic field is still in existence. That portion beyond the college land has been abandoned long since, council heard. The college, according to Hartzell and Winebrenner, when it built the "gate" at Water St. curved that end of the road north to meet that gate and left the former road ending from Brua Hall to N. Washington St. go into lawn.

### ENTRANCES TROUBLES

While discussing meetings with the college about the possibility of reopening the "township road," council was also determined to "crack down" on H. A. Alexander and Son, Inc., Harrisburg, builders of the addition to the college library. In reconstructing the college entrance at Stevens St., the contractor installed, as per plans for the work, a 54-foot-wide driveway. Council explained

in their path. The brunt of the fire is in a compact complex of mansions and vast estates—where the cheapest home costs more than \$40,000 and costs spiral up past the half-million dollar mark.

Application blanks and further information may be obtained from the Board of U. S. Civil Service Examiners, Room 215, Main Post Office, Harrisburg, or at the local post office.

### CROSBY MEETING

HOLLYWOOD (AP) — Week-old Nathaniel Patrick Crosby is awaiting his first glimpse of his father, Bing Crosby.

Bing is due back home this week from London where he is making a picture.

The baby was taken home from Queen of Angels Hospital Monday by his mother, Kathy Crosby.

### RAYBURN STRONGER

BONHAM, Tex. (AP) — Sam Rayburn's doctor said the House speaker, ill with cancer, was stronger and spent a restful day Monday. His condition remains serious.

Dr. Joe Risser said Rayburn, 79, was visited by his sisters and by Miss Alla Clary, his Washington secretary for 42 years.

The main aisle of St. Peter's is one-eighth of a mile long. Yet proportions in the church are so harmonious that things seem smaller than they are.

that its ordinance permits only 30-foot driveways and instructed the mayor to see that such a change is made.

It was explained that the contractor secured a building permit, but did not know that a driveway permit was also needed. There was some at the meeting who urged that the penalty of \$25 a day provided by the 30-foot driveway ordinance be imposed, but the majority of council did not seem to consider that seriously.

Plans presented at the council session showed the Harrisburg concern proposes to put a 10-foot divider in its 54-foot driveway. Borough Engineer Winebrenner said the 10-foot divider "won't work."

Council left the matter in the mayor's hands.

The Jaycees will complete plans for the youth dance at their semi-monthly dinner meeting on Thursday at 6:30 p.m. in the Starlite Room of Dutcher's Restaurant. The chapter will also further plans to sponsor the annual "The Is Your Life" program and variety show on Saturday, November 18 at 8 p.m. in the auditorium of the new high school.

### CUBS MEET

Cub Scout Den 9 met on Monday after school at the home of the den mother, Mrs. Robert Morgret, Prince St. Larry Alfio, den chief, taught knot tying to the boys and a practice session followed. Each Cub then gave a demonstration on tricks of magic.

Achievement books were heckled checked. The den will meet again next Monday at Mrs. Morgret's.

The newly organized Brownie troop met on Monday in the engine house after school. It was decided that five-cent dues will be received at each meeting. Peanut pixes were made by the Brownies under the supervision of Mrs. Herbert J. Sell, Mrs. Samuel J. Snyder, Mrs. Loy L. King and Mrs. Harry D. Feeler, leaders, and Peggy Alfio, troop aide. The troop will meet each Friday after school at the engine house, beginning November 17.

Claude Snyder, commander of Ocker-Snyder Post No. 321, American Legion, has announced that the membership drive being conducted by the post has surpassed its goal and the roster now contains 160. The post urges the local citizenry to display the flag on Veterans Day, Saturday. The American Legion will place a wreath at the veterans monument on S. Queen St., for Veterans' Day.

## Boy, 4, Rides 32 Miles On Bumper

AUGUSTA, Ga. (AP) — Four-year-old Dennis Lee Hannah just frowns when asked about his 32-mile ride clinging to the rear of a car. The tot came through the ride unscathed.

Relatives were visiting the Hannahs Sunday and when they left Dennis perched on the rear bumper, Mrs. Hannah raced after the car but couldn't catch it.

She summoned police but they were unable to find the car on its route to Wrens, 32 miles away. A motorist in Wrens spotted Dennis and waved down the relatives.

## 12 GIRL SCOUTS

(Continued From Page 1)

The purpose of the roundup, which is held every three years, is to "provide added interest and stimulation to ongoing programs in troops and camps and to give Senior Girl Scouts a sense of belonging to a strong and unified organization."

The encampment promotes better understanding and use of the patrol system and provides to those attending experience in living and working with other girls from many different backgrounds and from many parts of the United States and the world.

These Scouts will participate in training sessions to be conducted at various camps throughout the area and will become part of a troop of 72 Senior Scouts who will represent the newly organized Penn Laurel Girl Scout Council at the roundup activities. The group was selected from 61 girls who participated in several week-end qualification sessions.

Those selected are Sally Wolfe, New Oxford; Betty Hostetter, R. 2; Irene Glenn, Gettysburg; Linda Bream, R. 4; Carol Houck, Arendtsville; Jane Toomey, R. 6; Sarah Moore, Gardners R. 1; Barbara Peyer, Patricia Miller, Jessica Hirt and Susan Shearer, all of Hanover.

The alternates are Betsy Hull, Gettysburg; Carolyn Kump, Littlestown R. 2; Susan Snyder, Hanover R. 3, and Ann Wallace, Hanover.

Beamer suffered cuts about the face, police said, but did not seek immediate medical attention. Beamer's 1955 car was demolished. Police estimated damage to the right side of Beamer's vehicle at \$600.

Damage to the left rear of the 1951 truck operated by Shultz and owned by Rice Fruit Co. was estimated at \$300. Damage to the hood and left front of the Reider vehicle was estimated at \$450.

**Out Of The Past**  
From the Files of the  
Star and Sentinel and  
The Gettysburg Times  
FIFTY YEARS AGO  
Medal Of Honor Given Soldier:  
Captain William E. Miller, of  
Carlisle, who has a number of  
friends in Adams County, and  
who has visited at the home of  
Dr. T. T. Tate within the past  
few weeks, bears the distinction  
of being the only soldier upon  
whom any government has be-  
stowed a medal of honor for dis-  
obedience of orders. The story is  
told in a dispatch from Carlisle  
to the New York American which  
says:

During the battle of Gettysburg  
he risked court martial by dis-  
obeying the implicit instructions  
of his chief, and it is brought out  
that by so doing his action  
defeated Stuart's object to reach  
the rear of the Union army. In  
after years a grateful govern-  
ment decorated the captain for  
gallantry for "exceeding his or-  
ders."

That Auto Run: After traveling  
through the most disagreeable  
autumn weather that could well  
be imagined the participants in  
the sociability run of the Gettys-  
burg Automobile Club reached  
Gettysburg on their return about  
four o'clock Monday afternoon.  
No accidents were reported on  
the way with the exception of one  
puncture, a good record in view  
of the condition of the roads.  
Dinner was taken at the Central  
Hotel, Hanover, and the route  
taken to Littlestown from where  
a short cut home was determined  
upon, the general "inclemency  
of the weather" causing the auto-  
lists to give up the Tancytown  
and Emmitsburg ends of the tour.

Many Matters Before Council:  
Town Council took up and dis-  
posed of a number of matters at  
their regular November meeting  
Tuesday evening.  
Raphael Fissel asked for pave-  
ments at properties to the west  
of his home and was promised  
that adjoining property owners  
would be notified to put their  
walks in suitable condition for  
winter months. It was thought  
too late in the year to order  
pavements built.  
A letter from Dr. E. S. Breid-  
enbaugh was read asking that  
the new tungsten light on the  
third square of Carlisle street  
either be placed at a different lo-  
cation or shaded as the rays are  
now thrown onto his porch and  
into the house causing consider-  
able annoyance. Referred to light  
committee.

College Gets \$25,000 Gift: The  
wife and children of the late P.  
H. Glatfelter, of Spring Grove,  
have given \$25,000 to Gettysburg  
College as a memorial to him.  
Mr. Glatfelter was a trustee  
of the college for many years be-  
fore his death and a very liberal  
supporter of the college, having  
been the largest single contribu-  
tor towards the building of the  
magnificent recreation hall.  
He established the great paper  
mills at Spring Grove, now known  
as the P. H. Glatfelter Paper  
Company, and was the moving  
spirit of several other highly suc-  
cessful business enterprises, no-  
table among which is the York  
Manufacturing Company, York,  
known all over the country for  
their refrigerator machinery.

Will Inspect County Schools:  
The school children of Adams  
County will be among the three  
hundred thousand girls and boys  
in the third and fourth class school  
districts of Pennsylvania who are  
to be safeguarded from the un-  
discovered ills which menace  
their health and general well  
being.

All the preliminary arrange-  
ments for the work of medical  
inspection have been completed  
by Dr. Samuel G. Dixon, Com-  
missioner of Health, and during  
the coming week the actual work  
will begin throughout the 321  
boroughs and 460 townships which  
are to receive the benefit of the  
act of Assembly authorizing this  
protective measure.

The Boston News-Letter, which  
began publication in 1704, was the  
first regular newspaper in Ameri-  
ca.

## Today's Talk

### OPINION

To have an opinion is to es-  
tablish yourself on a rock.  
When you have an opinion  
come about as your property in  
an honest, straightforward way  
you have something that is worth  
anyone's notice.  
There are too many people who  
are nothing more or less than  
collectors of opinions.  
Public opinion is the sum total  
of a brave group of opinion  
owners. Then it is that all great  
movements take their start.  
If you have arrived at an op-  
inion, stay by it. Defend it. Nourish  
it as your own. Raise it to as  
healthy a life as you know.  
Robert Louis Stevenson once  
wrote that "All opinions, proper-  
ly so called, are stages on the  
road to truth."

The man with an opinion of his  
own has already reached a valu-  
able destination.  
Such a man should stay at that  
destination until he feels strong  
enough to travel to a better one.  
But all opinion has to be dem-  
onstrated. It has to have the el-  
ements of life and truth else it  
cannot live.  
No man's opinion should ever  
be accepted as final.  
In thought are opinions born.  
It therefore stands to reason  
that you should not live upon the  
labor of someone else.  
I prick up my ears when I hear  
a man say: "I have my own op-  
inion." I watch for that man's ac-  
tion. I know he will not work with  
the tools of another. He will first  
earn his tools and then present  
some finished work as his own.  
Opinions are the axioms from  
which all the problems of life are  
worked out for the betterment  
of this world.

Tomorrow Mr. Adams will talk  
on the subject: "Look Ahead!"  
Presented, 1961, by The George  
Matthew Adams Service

**Just Folks**  
THE TROUBLE  
He walked towards home with  
rapid strides.  
His dear young wife to greet;  
Sometimes she couldn't wait, and  
so,  
She'd meet him on the street.

But oh! this time the house was  
dark.  
The shades were all drawn  
tight;  
The luncheon dishes still un-  
washed  
Were scattered left and right.  
No frying beefsteak could he hear,  
Nor boiling coffee smell;  
The once bright home was turned  
to gloom;  
For what, he could not tell.  
But through the mist that filled  
his eyes  
He saw a dainty note;  
He opened it and quickly read:  
"Dear John, I've gone to vote."

## Listless Fall Campaign Will Terminate Tuesday

HARRISBURG (AP)—Pennsyl-  
vania voters will terminate a  
spirited fall campaign today  
by electing officials to scores of  
municipal and county posts and  
one justice to the Supreme Court.  
Though 5,632,838 voters are reg-  
istered—a municipal election re-  
cord—the turnout at the polls is  
expected to fall far short of that  
figure. The polls opened at 7 a.m.  
and close at 8 p.m.

The Supreme Court contest is  
the only statewide election. It pits  
incumbent Justice Anne X. Al-  
pern, a Democrat, against Alle-  
gheny County Judge Henry X.  
O'Brien, a Republican, for a full  
21-year term on the high court.  
In addition to the statewide con-  
test, voters also will decide five  
constitutional amendment propo-  
sals, including one on whether  
future governors should be al-  
lowed to succeed themselves.

**DEMS HOLD EDGE**  
Democrats hold a 155,000 edge  
in voter registration. They lead in  
20 of the state's 67 counties. That  
includes Philadelphia, which has  
been the cornerstone of Demo-  
cratic victories in recent years.  
The Philadelphia results are ex-  
pected once again to weigh heav-  
ily on the statewide contest, even  
though the city is not electing a  
mayor this year—a contest that  
usually draws a large turnout of  
city voters.

However, Pittsburgh, Scranton  
and 22 third class cities will elect  
mayors.  
In Pittsburgh the state's second  
largest city, Mayor Joseph M.  
Bar, a Democrat, is a heavy  
favorite to be re-elected. He is  
opposed by Republican William J.  
Crehan.

**PITTSBURGH SCRAP**  
Also figuring in the Pittsburgh  
election will be the Supreme Court  
contest. Both candidates for that  
office are from the city.  
The Scranton contest has Wil-  
liam Schmidt, a Republican, op-  
posed to re-election of Mayor  
James T. Hanlon, a Democrat.

The tone of the statewide cam-  
paign was geared to the nature  
of the office at stake. Court con-  
tests traditionally shy away from  
the rough-and-tumble campaigning  
that accompanies elections to  
posts in the legislative and execu-  
tive branches of government.

In 21 counties voters in 93 school  
districts will vote on proposed uni-  
on or merger questions. If all  
are approved, there would be 25  
new, but larger, school districts.

**GRASS ROOTS TEST**  
The vote is the first of its kind  
since approval of the state's con-  
stitutional reorganization law and is  
viewed in some quarters as a test  
of the grass roots popularity of the  
reorganization plan.

The school questions on the 1961  
ballot were put there under the  
old, voluntary law either by action  
of county or local school officials.  
State school officials contend the  
vote would not necessarily reflect  
any grass roots sentiment on the  
reorganization issue.

A total of 65 county court judges  
will be elected, but only 31 of  
the elections involve contests. The  
remaining candidates are either  
unopposed or were endorsed at  
the May primary by both parties.

**GOVERNOR'S ISSUES**  
The proposed constitutional  
amendment that would allow fu-  
ture governors to succeed them-  
selves for one additional term is  
the No. 1 issue among the five  
proposed changes in the basic law.

The others would:  
Allow the state to repay over-  
payments of taxes or fees without  
special legislation, as now re-  
quired by the constitution.  
Relieve from real estate taxes  
war veterans who are double or  
quadruple amputees, paraplegic  
or blind.  
Allow the secretary of internal

## CONFINE YOUNG PLEBE AT POINT

WEST POINT, N.Y. (AP)—  
United States Military Academy  
plebe Paul M. Weaver II was con-  
fined to his quarters today pend-  
ing investigation of his mysteri-  
ous flight from the academy Aug.  
30.

Weaver, 18, turned up in his  
hometown of Portsmouth, Ohio,  
Saturday after hitchhiking about  
the South and doing odd jobs as  
he went.

He was returned to West Point  
Sunday by military officials after  
his father notified the FBI that  
he was home.

The father, Paul M. Weaver,  
said the youth was "bewildered"  
and had been unaware that he  
was the object of a nationwide  
search.

After young Weaver was gone  
from the academy 30 days, he  
was dropped from its rolls and  
declared a deserter—a routine ad-  
ministrative procedure.

## Finland At Ease Over Soviet Request

HELSINKI, Finland (AP)—  
President Urho Kekkonen told his  
people Sunday night he considers  
the Soviet request for defense  
talks constitutes no danger to  
Finland's neutrality or independ-  
ence.

Kekkonen presented a confident  
view toward Moscow's Oct. 30  
note in a radio-TV report on his  
24-day tour of Canada and the  
United States.

Of the call for consultations be-  
tween Finland and the Soviet Union  
on common defense measures  
against what the Russians term  
West German militarism, Kek-  
konen said:

"The foundation of our foreign  
policy is relations with the Soviet  
Union based on confidence and  
on our neutrality, as recognized  
by the Western powers."

**Providence Center Is Scoring Leader**

NEW YORK (AP)—Paul Lar-  
ivee, veteran center of the Provi-  
dence Reds, has taken over the  
American Hockey League's scor-  
ing lead on the strength of a sev-  
en-point pickup in four games

commanding lead over Mississippi  
in passing. Detroit has averaged  
215.2 yards a game to Ole Miss'  
179.4.

Mississippi has passed for the  
most touchdowns, 15, and has the  
lowest average of interceptions,  
2.8 on only four interceptions in  
145 pitches.

Duke's Blue Devils retained  
their lead in aerial accuracy.  
Their passers have connected on  
70 of 117 for a .598 percentage.  
Utah State has the highest scor-  
ing average, 33.1 points a game  
for eight outings.

Springfield's Bruce Cline has  
the most goals, 9 and Sweeney  
the most assists, 12.  
Dennis DeJordy of the Buffalo  
Bisons is the leading goaltender  
with an average yield of 1.82

## 3,107 SEE K. C. STEERS BEATEN

By THE ASSOCIATED PRESS  
A crowd of 3,107 welcomed the  
Kansas City Steers at their first  
home game in the American Bas-  
ketball League Monday night and  
watched their team lose to Cleve-  
land 116-106.

League-leading San Francisco  
also assumed the spoiler's role,  
defeating the Los Angeles Jets  
116-113 in the opener at Los An-  
geles. The crowd there was 1,634.

Cleveland's 6-foot Roger Taylor,  
former Illinois star, proved the  
little man still has a place. He  
scored 35 points with a soft, out-  
side shot. Bill Bridges led Kansas  
City with 24.

In Los Angeles, George Yard-  
ley of the Jets and Whitey Bell  
of the Saints ignited a brief fight.  
None of the players involved was  
ejected.

San Francisco was behind 10  
points midway through the third  
period but a 3-point basket by  
Bell put the Saints ahead as the  
quarter ended. San Francisco  
never again relinquished the lead.  
Dave Gunther scored 27 points  
for San Francisco. Bell had 26.

Larivee has seven goals and 11

## SCORES FIRST TOUCHDOWN IN EIGHT GAMES

By FRED WALTERS  
HARRISBURG (AP) — There were many more important games played over the weekend in Pennsylvania high school football than the Manheim Twp.-Solanco game.

But it was a special day for Solanco.

After being shut out in eight games the Lancaster County team rallied six points against Manheim Twp.

A 14-yard pass from Bob Miller to Dave Murray broke the famine with some two minutes to play.

Ironically, Manheim Twp. is the Conference of Roses' top team and wrapped up the championship and an all-winning season with a 45-6 victory over hapless Solanco.

### 5 TEAMS DROPPED

Five teams were scratched from the unbeaten-untied list over the weekend, reducing that list to 28 teams.

The victims were Marple-Newtown, Philadelphia LaSalle, Pottsville, Penn Hills and Conestoga.

After beating tough Upper Darby and Ridley Twp., Marple-Newtown appeared over its biggest hurdles. But Plymouth-Whitmarsh administered the coup de grace, 14-13, to its unbeaten season.

LaSalle fell, 18-8, to West Catholic, throwing the Philadelphia Catholic League race into a three-way tie involving those two teams and Monsignor Bonner. A playoff for the title now seems likely.

Penn Hills' hopes for a WPIAL-AA playoff spot were ruined by Wilkinsburg, 9-6. The winner, however, practically clinched a playoff spot for itself against either Beaver Falls or Monessen.

Pottsville virtually was eliminated from the East Penn Southern Division title race in its 26-19 loss to Hazleton. Pottstown took over the Ches-Mont lead by beating Conestoga, 12-7, on a touchdown with five seconds left in the game.

### HAVE PERFECT RECORDS

Mahanoy Joint, Manheim Twp., Somerset, Tussey Mountain, Beaver, Shenango, Johnstown Catholic, Grove City and Clarion have closed their seasons with perfect records. Each won nine games.

Avella, Washington Twp., Wilkesburg and Albert Gallatin also closed their regular seasons unbeaten and untied but face WPIAL playoffs.

Avella and Washington Twp. play this week for the Class B title, which Washington Twp. is defending. Albert Gallatin may go to the Class A playoffs.

Fifteen other teams are still unbeaten and untied as the season comes to a close.

### LEAGUE CHAMPS

To the handful of teams whose names started the list of 1961 league champions a week ago have been added the following:

East: Neshaminy, Class A, and Council Rock, Class B, in the Lower Bucks; Upper Dublin and Lower Moreland Inter-county co-champs; Lansdale Catholic, Philadelphia Suburban Catholic 2; Norris-town Bishop Kenrick, Eastern Pennsylvania Catholic.

Midstate: Big Spring, Blue Mountain; York Suburban, Laurel; Mahanoy Joint, Twin Valley; Gov. Mifflin, Tri-County; Manheim Twp., Conference of Roses; South Williamsport, West Branch Susquehanna.

West-Central: Tussey Mountain, West Penn Class B.

West: Westinghouse, Section 1, and Langley, Section 2, in Pittsburgh; Erie Prep, Big Seven; Grove City, Section 3; Bradford St. Bernard's, Erie Diocesan Class B; Clarion, Southern Conference; Fairview and Fort Leifouf, Erie County co-champs; Ridgway and Johnsonburg, Bucktail co-champs.

WOULD MAKE "SPITBALL" LEGAL TENDER

By BEN OLAN

Associated Press Sports Writer

NEW YORK (AP) — Beleaguered big league baseball pitch-

ers, stung by a record 2,730 home

runs last season, have a strong ally

in Commissioner Ford Frick.

"I hope they bring back the

spitball," Frick said today. "The

pitchers need help. Most of the

rule changes the past few years

have favored the batter. Some-

thing has to be done to give the

game more balance."

According to Frick, a proposal

to legalize the spitball was sub-

mitted to the major league rules

committee last month. The group

is expected to consider it during

the majors' annual meetings

early in December in Tampa,

Fla. Jim Gallagher, veteran ex-

ecutive most recently with Phila-

delphia, is the committee chair-

man.

OUTLAWED IN 20'S

"A similar proposal was sub-

mitted to the committee a few

years ago but was turned down,"

Frick recalled. "This time I

think there's even more need for

the spitball. The fans will eventu-

ally get tired of seeing all those

home runs. The spitball would

help bring back the stolen base,

the hit-and-run and the sacrifice

would give the fans some-

thing new."

Frick pointed out Joe Cronin,

American League president, and

Frank Shaugnessy, former presi-

dent of the International League,

also are in favor of the spitball's

return.

The spitball, outlawed in the

early 1920s, moves up to the plate

like a knuckler, only faster, Frick

said.

Texas Tech Rookie Subs For Brookshier

PHILADELPHIA (AP) — Glen

Amerson, a rookie from Texas

Tech, has been named to replace

injured defensive back Tom

Brookshier in the Philadelphia

Eagles' crucial National Football

League meeting with the New

York Giants Sunday.

Brookshier, a defensive star for

the Eagles, broke his right leg

Sunday in a 16-14 victory over the

Chicago Bears.

"Amerson has big shoes to fill,"

said Coach Nick Skorich. "But it

just means everybody will have

to work a little harder."

With the exception of Brook-

shier, termed by Skorich a "great

defensive back," the Eagles ap-

pear to be at full strength, as will

the Giants. Fullbacks Joe Morris-

son and Phil King of the Giants

are expected to be back in action,

enabling Alex Webster to return

to his normal halfback post.

## GOPHERS KEEP MISTAKES OUT OF FOOTBALL

By JIM ROGERS  
MINNEAPOLIS, Minn. (AP) — Ability to make the big play when the chance comes.

That sums up the success story of the Minnesota football team, author of Saturday's 13-0 upset of top-ranked Michigan State.

"We play a methodical type of game which is not very interesting to the spectator," says Gopher Coach Murray Warmath.

"We concentrate on trying to take the mistakes out of football — and then let our opponents beat themselves by making a mistake or two."

Rival coaches, aghast over the Michigan State defeat, agree that Minnesota's game is sometimes methodical and unimaginative. Some add the word lucky, too. They admit their mistakes, point to some Gopher errors and cite injuries as factors. But seldom do they say it was because Minnesota has a better team.

5 VITAL PLAYS

An expert watching Minnesota

for the first time Saturday com-

pared the Gophers with boxer

Tiger Jones, saying, "It doesn't

look like he is winning until he

start counting up the points in the

sixth round."

Against Michigan State Minne-

sota came up five times with a

vital play.

"We like to kick on third down,

kick off instead of receive and

stick to a running attack as much

as possible, mainly to place the

pressure on the other team,"

Warmath explained. "We figure

if the opposition has the ball deep

in its own territory it is more

likely to make a harmful error."

"We play the percentages a

great deal and sometimes shock

the fans with our conservatism,

but it is all for a definite pur-

pose. You might say we play a

defensive ball game."

The fans didn't like Warmath's

style of football several years

ago. They love it now.

Team Offense Lead

DALLAS, Tex. (AP) — Houston

stepped up its offense and San

Diego its defense in the Ameri-

can Football League last week.

Houston moved farther out

front in offense, running its av-

erage to 433 yards per game—20

yards more. The Oilers do most

of their moving in the air, show-

ing 313 yards passing.

San Diego, the unbeaten leader

of the Western Division, is stin-

gler than ever on defense. The

tightfisted Chargers have given

up only 225 yards per outing, of

which just 89 are on rushing.

San Diego is in second place on

offense averaging 337 yards per

game.

Houston ranks third in defense,

behind New York. The Oilers are

allowing 300 yards per game,

New York 285.

## BALUBAS TRIBE SEEKS REFUGE FROM CONGO

By LYNN HEINZERLING  
ELISABETHVILLE, Katanga, (AP)—Some 30,000 Baluba tribesmen, sitting in mud and filth on the northern outskirts of Elisabethville, tell the sad story of the Congo.

They include men, women and children. Fear sent them to this camp for U.N. protection—fear of ancient tribal enemies, fear of primitive brutality by the police, and maybe imagined terrors unknown to modern man.

The Baluba of Katanga are political followers of Jason Sendwe insofar as they have any political consciousness.

Now vice premier in the central Congolese government at Leopoldville, Sendwe is an exile from Katanga.

### THREATENED BY POLICE

The Baluba began to leave their homes in the African townships of Katanga more than two months ago. They said police of Tshombe's interior minister, Godefroid Munongo, had circulated through the townships, threatening and maltreating them.

The Balubas settled down in what once was a handsome suburban area, with a few handsome villas and many trees. Soon they were arriving by the thousands, bringing pots, pans, chairs, sewing machines.

They hacked limbs from trees, gathered grass and made thousands of huts. Trees, grass, shrubs and flowers had disappeared. The Balubas squat in their huts waiting in fear.

### KILLED 8 BALUBAS

Swedish U.N. troops make regular patrols through the camp in armored cars. Once they opened fire when youths seized a Swedish soldier. Eight Balubas died.

Ten days later it was discovered the bodies were being preserved with ice from a brewery. The Balubas said they were preserving the bodies as proof that the United Nations killed the tribesmen.

The 30,000 Balubas sitting in the mud illustrate the deep tribal suspicions and intense hatred which motivate the Congolese.

They show why it is so difficult to form a central government representative of all sections of the Congo. The colonial powers for years made no effort to integrate the tribes. Instead they used these primitive divisions to consolidate control.

### HAVE 3 ARMIES

Katanga leaders insist they have nothing in common with the politicians in Leopoldville, 1,200 miles away. Katanga, they say,

## COOLER WAVE STRIKES STATE

By THE ASSOCIATED PRESS

Cooler air spread over Pennsylvania Monday after a spring like weekend in which temperatures reached into the 70s and 80s in some parts of the state.

Forecasters also called for a few periods of rain, mostly in the central and eastern areas of the state.

The mercury rose to an official record high of 80 at Philadelphia International Airport Sunday, two degrees warmer than the previous Nov. 5 record of 78 set in 1959. It also was the highest temperature ever recorded in Philadelphia this late in the year, and the third straight day or above 70-degree temperatures for the Philadelphia area.

The cooler air moved into western and central Pennsylvania early Monday then headed slowly eastward. Forecasters said afternoon temperatures would be in the upper 50s in central Pennsylvania and in the mid 50s in the western areas.

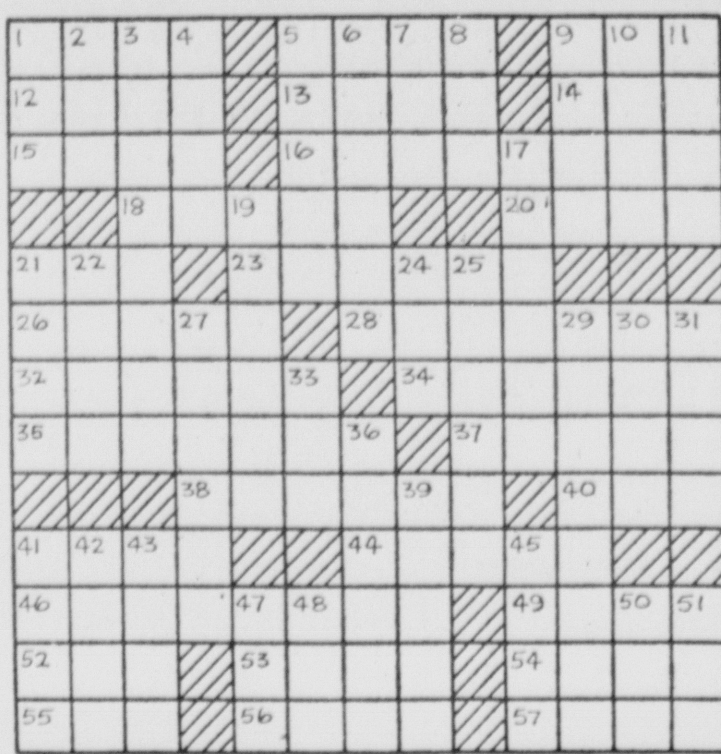

The forecast for eastern Pennsylvania called for a high ranging in the 70s in the southeast to the 50s and 60s elsewhere.

was included in the new republic simply because the Belgian colonial authorities arbitrarily included it to suit their purposes.

The Congo now has three armies: those of Gen. Joseph Mobutu in Leopoldville, Victor Lundula in Stanleyville, and Norbert Muke in Elisabethville.

The U.N. task in reconciling these conflicting forces and maintaining order in the Congo's 900,000 square miles will take many years.

## HAVE LEADS IN SLAYING OF WOMAN, 29

PHILADELPHIA (AP)—Police in Delaware County report several promising leads in their investigation of the murder of Mrs. Elizabeth Neate, 29, Glenolden.

Her body was found Saturday in a weed-filled lot in suburban Prospect Park, about 2½ miles from her home.

Police said Sunday she may have been shot and killed near her home. Residents of the area where she would have been walking Friday night said, however, they heard a sharp report about the time she disappeared. Mrs. Neate was shot once through the head.

She was enroute to a bus stop on her way to a dental appointment. She never showed up for the appointment.

### WAS ATTACKED

The Philadelphia Bulletin said today it learned chemical tests on the body indicated the red-haired, blue-eyed mother of three was raped before she was murdered.

Mrs. Catherine Burdette, Mrs. Carl Shriner and son, Roy, of Rocky Ridge, and Mrs. Louise Burdette, Mrs. Mary Ramsburg and Mrs. Naomi Long of Creagertown.

Miss Linda Herring entertained the following guests at a Halloween party at her home: Linda Weikert, Douglas Newman, Carla Mummert, James Hammett, Cindy McDannell, Bonnie Flenner, Beverly McClain, Lynn Anderson, Mary Ann Kittinger, Beverly and Linda Shindler, John Seiferd, Billy Sanders, Mary Louise and Yvonne Herring.

## Orrtanna

ORRTANNA — The Women's Society of Christian Service of the Methodist Church here met on Thursday evening in the sanctuary of the church for devotionals. Hymns were sung and a prayer litany was given by the spiritual life secretary with response by the group after which a representative from the Mt. Carmel EUB Church spoke on the activities of their WSWs on the work they do along missionary lines.

A representative from each of the six circles of the Zion Lutheran Church, Fairfield, also spoke of their activities in the different fields of endeavor. The

dedicated. Officials connected with the investigation refused to discuss the matter. The newspaper, however, said it was established on good authority that investigators are working on a theory criminal assault was the motive for the slaying.

Police said they had determined she caught no bus Friday night, so apparently she was driven to the vacant lot. She was to have walked a few blocks to a bus stop.

Delaware County Chief of Detectives Maurice L. Maitland said Sunday, "We have several promising leads." He added, "All we can do is to keep checking them out." He did not elaborate on the leads.

Mrs. Neate's husband, Roy, 34, remained at home to mind their children.

president of the Orrtanna group outlined the purpose and endeavor of their society and what they as women of the church strive to do. The three churches represented showed a striking similarity in their work for missions both at home and abroad. After the devotionals, the group went into the hall for the regular monthly business meeting of the local group. Plans were completed for the turkey supper to be held in the church hall November 11 and their annual visit to the Adams County Home, setting the date for November 21. The next meeting will be held in the church hall in the form of a Christmas party December 7. A social hour followed and refreshments were served with Mrs. Betty Donaldson and Mrs. Carolyn Biesecker as hostesses.

## TV LOOKING BACK A LOT THESE DAYS

By CYNTHIA LOWRY  
AP TV-Radio Writer

NEW YORK (AP) — Television has been turning out so many nostalgic shows—looking backward by means of old newspaper headlines, bits from old movies and newsreels and once-popular songs—it should have a stiff neck. Two more hit the TV tubes over the weekend.

CBS' "Golden Anniversary" musical special Friday night was the more ambitious: it was looking over the past 50 years.

Sunday night's NBC "Music of the 30s" concentrated on the depression years, that familiar TV area including the speakeasy door, the apple-seller, the girl singer perched on the piano, the stock market graph, and, of course, the voice of the late FDR.

**BRIGHTEST ENTERTAINMENT**  
The anniversary show was bright entertainment, with some funny and clever song numbers and some inspired moments of clowning by Nanette Fabray and Tony Randall.

Sunday night's memoir of the 1930s dragged during overlong musical numbers, but it had some wonderful film clips from old movies—Myrna Loy dancing a solo and Dick Powell crooning, for instance. But it was not up to the usual standard of NBC's Project

20 producers.

### FRESHET COMING

Get braced for a freshet of public affairs shows probing chances of survival after a nuclear attack. "CBS Reports" has a two-part on the subject starting Thursday night, and NBC will present a "Nation's Future" debate on it Nov. 19. But that is just the beginning.

"Calvin and the Colonel" is scheduled to be bounced out of its Tuesday night spot after this week's program, probably only part of considerable reshuffling of ABC shows. The network has been faring poorly on the ratings charts this season.

"The New Breed," its hour-long police-action series, will be pushed forward into the empty space, followed by "Yours for a Song," a new musical quiz show with Bert Parks.

Although "Calvin"—which attached "Amos 'n' Andy" voices to Disney-like figures of a bear and a fox—is the first prime-time cartoon series to bite the dust, none of them except "The Flintstones" is doing particularly well.

### SHELTER WINDOWS

CORNING, N.Y. (AP) — Radiation-tight windows that would provide a glimpse of the outside from a family fallout shelter have been developed by Corning Glass Works.

The glass portholes, four inches square and up to 36 inches thick, are designed to ease the mental strain of confinement. The company said a 24-inch-thick window with frame and casing is priced at "less than \$100."

## A Lovelier You

By MARY SUE MILLER  
**CLOCK STOPPER.** The first sign of aging skin is dryness. And woe betide the lovely who fails to watch for the condition, or to take remedial steps as it develops.

Unchecked, dryness leads to an early loss of elasticity. Then fine

lines begin to appear, followed by deep furrows. Thereafter, the skin becomes crepey and sags. In the light of those facts, surely no woman would neglect a drying skin.

The drying process starts in the 30's, owing to a slackening of the moisture and hormone supply. But whatever your age, past 30 years, the program below retards dryness and its aftermaths. Too, it greatly improves a complexion, already lined and limp.

• Be faithful to these health rules: Adhere to a well-balanced diet; avoid crash reducing diets; never skip on sleep or rest; get your share of fresh air and physical exercise. All are tonic to the skin.  
• If you do not own a moisture cream or lotion, and a rich night-care emollient, you had best invest. Present-day products can prolong the look of youth for years, providing of course you use them correctly. And that means daily applications, massaged in well.

• Keep your facial muscles firm, via localized exercise. A good one follows: Purse lips, begin to smile, drop jaw, and close lips. Repeat, smiling just a bit wider each time until you are grinning. Make all motions slow and deliberate.

By following the program you may not stop the clock, but you sure will slow it up!

### CREPEY THROAT AND CHIN

To firm and uplift sagging muscles and flesh, use my four-way method. It works wonders through corrective exercise, posture, skin care and make-up. Procedures are detailed in the leaflet, "BANISH CREPEY THROAT & CHIN." ## Some cars have new names... this name will have a new car!

The name is familiar—the Ford Fairlane 500. The car itself is totally new—so new you'll see nothing else like it this year. It is one of Ford's milestone designs—and will be as influential in its way as the first mass-produced car (a Ford Model T), the first popular station wagon (a Ford Wagon), the first four-passenger luxury car (a Ford Thunderbird), the world's most successful compact (a Ford Falcon).

Right between Galaxie and Falcon in size and in price, the 1962 Ford Fairlane 500 is just the right car for just about everybody; you have never been able to buy anything so right before.

Big in room, ride and performance, it is still priced under most compacts. It nurses a nickel as though it never expected to see another. It moves like a rabbit on roller skates.

New unitized body a foot shorter outside... full-size inside  
Ford engineers have changed the proportions of the automobile: a completely new unitized body gives you more room inside with less bulk outside. The new Fairlane 500 is pleasantly parkable, delightfully drivable, easily garageable. At the same time it packs into its neat and nifty 197 inches as much passenger room as you had in some of the biggest Fords ever built.

Twice-a-year maintenance  
Service is reduced to a minimum—30,000 miles on many items, twice a year on the rest. You go 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications. You don't have to touch the engine coolant-antifreeze for two years—or 30,000 miles—at a time. Brakes adjust themselves.

All-new economy Eight from world's V-8 leader

The hand that honed the Thunderbird—sped the Falcon to all-time Economy Run honors—turned to a new problem here, the world's first economy V-8. Made possible by new Ford foundry methods, the new Challenger V-8 is as strong as iron—and a lot lighter than iron's ever been before. As lively as you'd like... thrifter than you'd expect a V-8 to be... it's a natural powerplant for America's first eat-your-cake-and-have-it-car.

For those who want even greater thrift, there's a new Fairlane Six. Its economy

would be gratifying in a smaller car. In a car this size it's a downright delight.

Preview America's newest car now  
As part of Preview Run U.S.A., new Fairlane 500's are riding the nation's highways and main streets right now. Watch for them. See what thousands have already seen—and raved about. Take a turn at the wheel—and perhaps do a little raving yourself.

We think you'll agree: this all-new Ford is just right for just about everybody. No matter how many new cars you've looked at, you haven't seen anything like this one. It will be at your Ford Dealer's next week. If you miss it now, be sure to see it then.

JUST RIGHT FOR  
JUST ABOUT EVERYBODY!
